GREEN PROJECT

The LEED BD&C v 4 standard (LEED Building Design & Construction), effective since 31 October 2016, is a rating system dedicated to the development of "green" buildings. Developed by the US Green Building Council and internationally recognised, it outlines the necessary requirements to build eco-compatible projects, capable of functioning in a sustainable and autonomous way from an energy point of view, as well as having a low environmental impact throughout their entire life cycle. This system is based on the allocation of credits for each single requirement: the total amount of credits defines the certification level obtained. Ceramic tiles can also contribute to the achievement of LEED points. Ceramiche Atlas Concorde is a member of the US Green Building Council.

Lo standard LEED BD&C v 4 (LEED Building Design & Construction), entrato in vigore il 31 Ottobre 2016, è un sistema di rating per lo sviluppo di edifici "verdi". Elaborato dall'US Green Building Council e riconosciuto a livello internazionale, indica i requisiti per costruire edifici eco-compatibili, capaci di funzionare in maniera sostenibile ed autosufficiente a livello energetico e di avere un basso impatto sull'ambiente durante tutto il loro ciclo di vita. Il sistema si basa sull'attribuzione di crediti per ciascuno dei requisiti: dalla somma dei crediti deriva il livello di certificazione ottenuto. Anche le piastrelle ceramiche possono contribuire al raggiungimento dei crediti LEED. Ceramiche Atlas Concorde è membro dell'US Green Building Council.

Outdoor products that mitigate the "heat island" phenomenon, thereby reducing effects on the microclimate, the human habitat and wildlife can contribute to earning a LEED credit.

HEAT ISLAND EFFECT. Possono contribuire al raggiungimento di un credito Leed i prodotti che, utilizzati in esterno, mitigano il fenomeno dell' "isola di calore" riducendo gli effetti sul microclima, sull'habitat umano e sulla fauna selvatica.

BUILDING PRODUCT DISCLOSURE AND OPTIMIZATION. SOURCING OF RAW MATERIALS (MR) "RECYCLED CONTENT".

For several porcelain stoneware items and all white-body wall tiles, Atlas Concorde has a certificate issued by a third party that certifies the percentage of recycled "pre-consumer" material and that can therefore help earn a LEED credit.

Per diversi articoli in grès porcellanato e tutti i rivestimenti in pasta bianca, Atlas Concorde dispone di una certificazione rilasciata da ente terzo che attesta la percentuale di materiale riciclato "pre-consumer" che può contribuire al raggiungimento di un credito LEED.
